Introduction

The assessments in this course are designed to progressively develop a business case study for a tourism business of your choice that intends to (or should intend to) increasingly operate utilising sustainable practice.

LEARNING OUTCOMES ASSESSED

1. Understand some of the key sustainability issues both present and future in a national and international tourism context
2. Demonstrate an understanding of the systems of sustainability

Task:

Write a preliminary report describing your chosen business and the market it operates in.

- Briefly describe the business you have selected and its products or services.
- Understand your external environment specifically commenting on factors with relevance to sustainability.
- Identify the broad challenges your business faces around the issue of sustainability?
- Understand what are other businesses in this sector are doing to address these issues?
- Why are sustainable practices going to be important to the success of your business?
- Identify the values, beliefs and vision for your business based on increasingly embracing the concept of sustainability.
- Based on your vision, write a mission statement for your business.
